

## TALK IT OUT QUESTIONS

What are you thankful for today? How is gratitude a foundation of each aspect of community (common faith-Celebration, relational connection – Connect, common cause- Contribute)? How does gratitude change how we experience each of these aspects?

Reflect on the 3 aspects of community:

### Common Faith

What do we do in a worship service on Sunday morning that makes you feel connected with your fellow worshippers in a common faith? What do you wish we could do more of?

How can we reflect this aspect of common faith with other Christian churches in our community, with our sister churches in the district, with our brothers and sisters worldwide?

### Relational Connection

What are some ways we can enhance relational connection even during this pandemic?

### Common Cause

Pastor Kevin defined *Communitas* as “the common shared experience of doing a task together.” Describe a common shared experience where you have experienced that bond? What makes the bond of these experiences special?

What are your thoughts and feelings about doing the community blessing and giving to HFC together as a church as opposed to just doing it as an individual?

How did the Holy Spirit speak to you through the service? What are you going to do about it?
